Model #: P900
Floor Price: $32,000

protocol 4

EBOO Pro²

The EBOO is an advanced blood oxygenation and ozonation system designed to support detoxification, circulation, and overall wellness. By filtering and oxygenating the blood while delivering controlled ozone therapy, the EBOO helps support cellular function, immune health, and the body's natural recovery processes.

EBOO Pro²

Technical Specifications

Model P900

Spec	Details
DEVICE TYPE	Extracorporeal Blood Ozonization & Oxygenation system
PROCEDURE TIME	50 min standard treatment
BLOOD TREATED	2 L per session
OZONE DELIVERED	~150,000 mcg per standard session
DISCHARGE TUBE	High-purity quartz (SiO2 >= 99%)
ELECTRODE	Medical-grade titanium
DISCHARGE METHOD	Corona discharge
COOLING SYSTEM	Air-cooled / fan-assisted
OZONE RANGE	3-65 ug/mL (adjustable)
UV FREQUENCIES	UVA and UVC
FLOW CONTROL	Peristaltic pump
SAFETY SENSORS	Drip chamber backflow + O2 flow
FILTER TYPE	Cellulose triacetate hemodialyzer
BASE FILTER PRODUCT	Nipro Cellentia-15H (repurposed)
FILTER SURFACE AREA	1.5 m2
TUBING MATERIAL	High-grade medical silicone
UV CUVETTE	Quartz glass with internal turbulator
STERILIZATION	Pre-sterilized in FDA-approved facility
FILTER SAFETY	BPA and DEHP free
ELECTRICAL / VOLTAGE	110 V standard outlet
DEVICE DIMENSIONS (L X W X H)	20 x 220 x 330 mm | 8.66 x 8.66 x 12.99 in

protocol 4
